HALT the HUN!

TO THE PEOPLE OF LEE CO.

BUY U.S. GOVERNMENT BONDS

WE ARE AT WAR. We entered this conflict to prevent Liberty and Democracy from being lost to offiselves and the world. This is the noblest cause that ever moved the mind of individual or nation. The horrors of this war are shared by all in mental anguish, by some in physical suffering, and as it progresses, it is brought home to us more clearly that this suffering will be prolonged or shortened exactly in proportion to the support we at home give in these times.

In the nature of things, we cannot all take a place in the front ranks, but as the success of the front rank depends primarily on prompt and efficient support from the rear, so if we will think of our Army and Navy as the front rank in this case and ourselves as the base, with your boy or your neighbor's boy depending for existence on the support we give-and our own Freedom depending on his success, it will be borne in on us that whole-hearted support is absolutely necessary to this

The Liberty Loan is the medium through which this support is given. The present issue is for three billion dollars, bearing four and one-fourth per cent interest and maturing in ten years. These bonds are in denominations ranging from fifty dollars to ten thousand dollars, and may be bought for cash, on the Government plan of four installments, or on the bank plan of semi-monthly payments.

The proportionate share of each Federal Reserve District has been fixed, and in turn the proportionate share of each State, County and Township within each District has been fixed. As Townships, Counties and States, we are a component part of a Government to which we owe allegiance, and we each and all of us have an individual duty to perform—and that is to subscribe for our share of these bonds. The individual share does not mean a bond, but means an investment in bonds commensurate with our means or ability to buy. This is as it should be. Think of our Government as a great corporation and each and all of us stockholders. Those having the most of this world's goods, either in the form of Property, Money or Earning Power, have received more and should give more, and the obligation rests on all in proportion to their ability to buy.

The campaign for the sale of these bonds started Saturday, through the opening of Bond Sales Headquarters at the corner of Galena and First street, and it is the wish of the Committee, that, insofar as Dixon Township is concerned, that as many as possible make their subscriptions at Headquarters and thus save the solicitors considerable effort.

Personal solicitation will begin on Wednesday and it is the aim of the various committees to see each indiyidual in the County. This is an arduous task at the best, but each of us can make it less so if we will. Think it over-the obligation is clear. Determine the amount of bonds you should buy and be ready for the solicitor,

The Government has evolved a system in the conduct of this campaign which includes reports to them on a blue card, which shows the name of any one, who in the opinion of the local committee is able to buy a bond and refuses to do so. This is not designed to do injustice to anyone, and will not. Our Government has conferred citizenship on us and in return has a right to know if we are good citizens.

The man who can buy a Liberty Bond and does not do so, is not a good citizen.

The man who discharges his obligation by buying far

less than he should is better only in proportion. The true measure of patriotism is the extent of the

Supposing the enemy had landed on the coast, and in battle array were coming up the street toward your home. Suppose American troops coming up the street toward your home. Suppose American troops one soldier, fighting to defend your home and your family.

Would you not be willing to give \$50 or \$100 to provide him with reserves of arms and ammunition, with food, with everything he needed to keep his place there?

Would you hesitate to give this sum, even if its repayment was not guaranteed by the richest man in the world, who would also give you 4 1-4 per cent interest for its use?

You know that you would give \$50, or \$100, or any other sum you could scrape together, to support the man who was defending you, and that you would give it without any consideration of interest or repayment.

But that money must be transmitted into munitions and supplies before it can be made to count in the war.

And, above all, there must be enough of it-more than enough-all that the government needs for immediate requirements, and a vast reserve to meet future needs.

One \$50 Liberty Bond will buy:

Enough ether or chloroform to ease the pain of 250 or more wounded soldiers during operations on the field or at base hospitals.

Twenty-five treatments of antitetanic serum, so that the wounds made by the shrapnel or bullets of the enemy shall not cause death by lockjaw, which proved one of the greatest horrors of war in other days.

Three modern rifles, enough to last a man many days under active fire. Fifteen hundred rounds of ammunition, with which any American soldier can do offensive execution, preserving his life and saving the lives of the wounded in the rear.

Enough food to keep a soldier 150 days.

Enough smallpox vaccine to make 500 soldiers immune from one of the most fearful scourges of war.

A base hospital laboratory.

Four gallons of iodine or fifty gallons of peroxide of hydrogen, both necessary in the antiseptic treatment of wounds.

Ten to fifteen litters, with which the wounded can be carried from the field.

Ten cots for use in hospitals.

or Bladder bothers you-Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of also to neutralize the acids in urine, so it no longer irritates, thus ending

SAYS HIT THE HUN

Major General Barry Says Aid Liberty Loan to Avert Indemnity Fund.

By MAJ. GEN. THOMAS H. BARRY [Former Commandant at Camp Grant, Rockford, III.]

Four years ago the German government started a war, which evidence makes certain had for its object the domination of the world, the crushing of democracy and the establishment of autocracy in its stead.

Evidence of this far-reaching plot appeared as the war was prosecuted by the Germans with such lawless cruelty, that in an effort to parallel their inhuman savagery a shocked world has revived the mediaeval word
